

Alicia's Position on Solar Energy

Alicia Kallen supports solar energy and energy efficiency, promoting economic growth in our region. She supports legislation that gives the consumers a voice about the electric energy they purchase, jobs, saving customers money, and building new opportunity for businesses. She backs Solar Power and access to Power Purchase Agreements by private and public parties including schools and home consumers.

Alicia Kallen supports freedom of choice for homeowners, businesses, schools, and churches to have clean money-saving solar power. She backs the right for consumers to secure utility-financed home energy efficiency improvements.

Alicia Kallen takes no campaign money from utilities and will fight monopoly power companies on behalf of free enterprise. She will fight for sustainable local energy jobs.

Alicia will protect our homes, farms, and forests from seizure by power companies for pipelines that neither serve nor create long-term employment in our region. She will fight to for our economic future while protecting our environment.
